Dean Announces Scholarship Changes

In a recent bulletin to the faculty, Father Dupont, Academic Dean, has announced a new faculty committee on scholarships under the chairmanship of Mr. Garrett, Assistant Dean and Registrar.

Interviewed on the purpose and significance of the new committee, Father Dupont stated that it is a natural outgrowth of the continuing faculty-administration "self study" of the St. Michael's Plan.

TO SEEK GIFTED STUDENTS

"For several years, the Alpha Nu Chapter of Delta Epsilon Sigma Honor Society has been giving serious thought to the deepening of scholarship on the campus and has made several recommendations," Father Dupont said. "Last year, as a result of further discussion on this topic at a faculty meeting, a committee was formed to work out a special program for unusually gifted students. This committee, under the chairmanship of Dr. Pfeifer, proposed the Special Program for Gifted Students which was approved by the Faculty and initiated with the opening of the Fall term this year. The recently formed committee on scholarships goes at least one step further in that it will attempt to guide outstanding students into nationally and internationally famous graduate programs."

Shield Editor Reveals Plans For 1958 Issue

Along with the 1957 *Shield*, comes, a criticism of it by the editor-in-chief of this year's *Shield*, Joe Fortin. Joe complimented the general planning of the yearbook. He said this was largely due to the fine work of the staff and last year's editor, Ray Jacques. He thought that the cover of the book has brought a new idea to St. Michael's. He feels that it represents more than any of the previous covers.

NEW CHANGES

Joe was quick to point out the changes that would be made in this year's *Shield* and how he thought they would be improvements over previous books. As he has stated before, the main objective of this year's staff is to have the book ready by graduation. Some of the chief differences between this year's book and last year's are as follows: instead of two seniors on a page as there was last year, there will be five this year. This is due to the smaller size of the book. 132 pages as compared to 196 last year.

Chemistry Club To Tour General Electric Co.

On November 21, the Chemistry Club will embark on a trip to Pittsfield, Mass., where they will tour the General Electric Transformer Division and Resins Plant.

They will leave early Thursday morning and the tour will last most of the day. They will travel by car; and since only the Junior and Senior Chemistry majors are going, there are only three cars going. The members of the club will be accompanied by Dr. Lemaire and Mr. Michaels.

Club President Dan Boryta has announced that the General Electric Company has a full day planned for the club. The tour will include the plant production of the world's largest transformers, step by step. One of the main attractions will be the only man made lightning laboratory in the world. In it, bolts of lightning up to a hundred feet long are produced.

The Pittsfield plant is the center of General Electric's chemistry industry and the trip should prove vastly interesting to those who are going.

Debating Society Holds Annual Novice Tournament

The Newman Debating Society played host this week to the debating Clubs of 4 neighboring Colleges, in the annual Novice Tournament. This meet represented the fifth intercollegiate test for the Club.

In the three round affair, Dartmouth, Norwich, U.V.M., and Middlebury vied with S.M.C. on the question of compulsory unionism. At this writing the results of the tourney are still not in, but in view of the record thus far, the club's moderators, Prof. Stewart and Prof. Murphy expressed confidence in the first year men. "We do not view winning as the final end of the teams", Mr. Murphy said, "Our main interest lies in affording this very profitable experience to the greatest number of students."

OTHER DEBATES

Prior to our own tourney, the debaters have attended novice meets at Dartmouth and U.V.M., and varsity tilts at Middlebury and Dartmouth. The most impressive showing thus far was the Novice affair at Dartmouth on Nov. 2. The team, with a record of 4 wins and 2 losses, joined Harvard in a tie for second place among the ten participating schools. Individual honors went to Charles McManus, voted outstanding affirmative speaker of the tournement. The varsity showing at Dartmouth, the following Thursday, was not so successful; the affirmative team was bested by both St.

Foreign Students Complete Courses

Professor Earnest A. Boulay, director of the Department of English for Foreign Students presided over the graduation of approximately 25 students from the language program Tuesday night, at 7:00, in Aquinas Hall. The ceremony was on an informal basis.

GRADUATES

There are approximately 12 graduates of this program for Foreign Students now attending regular classes at S.M.C., one senior, two sophomores, and ten Freshmen. Upon the graduation in February, there are five more students expected to commence studies here at S.M.C. Many graduates are attending other colleges and universities throughout the United States.

This type of program is found in approximately one-third of the colleges in the United States. It is of great International importance in that, it educates these students in the English language so they can go on to higher education. This education they attain is then made available to their own country when the student returns to his home land.

A new group of students registered and were orientated on November 13th. This group numbered approximately 75 students, including the students who continued from the previous course. There are ten countries represented in this new session. The following are the countries and the number of students that will be represented by each country: Iran, 45 students; Canada, 9 students; Brazil, 2 students; Columbia, 5 students; Venezuela, 6 students; Porto Rico, 1 student; Cuba, 1 student; El Salvador, 3 students; Greece, 1 student; Argentina, 1 student. These students will be put through an extensive program of placement exams in the English Language.

Crown & Society Will Assist At Tournament

The Christmas Basketball Tournament will be held in Burlington Memorial Auditorium on December 27 and 28 it was announced by Joseph Haley, president of the Crown and Sword Society.

Among the visiting teams engaging the Purple Knights will be the University of Vermont, St. Anslem's of New Hampshire, the University of Massachusetts.

Coach "Doc" Jacobs is now in the process of finding lodging for the visitors and also making out a schedule for the various games to take place.

The Crown and Sword Society members will return from Christmas vacarion early and serve as the Public Relations people for this forth-coming event. Each individual team will be assigned an individual guide from the Crown and Sword Society who will act as a representative in showing the visitors the sights as well as guiding them to their scheduled events.

Future Teachers Gain Experience

The future teachers of America, products of SMC, are gaining practical experience by teaching high school students at downtown Burlington Junior-Senior High Schools and at their own home town schools. Ten of our seniors are currently participating in the SMC teaching program which is a means of proving to the student teacher whether the teaching career is his vocation in life or not.

REQUIREMENTS

The program must include a minimum of 90 hours of direct observation and practice teaching. It is designed to meet this requirement by gradually inducting the student teacher into his apprenticeship and providing for the progressive growth and development of his education.

FOUR PHASES

The program has four sequences. The 1st phase is orientation. This means that during this period the teacher

(Continued on page 3)

President To Celebrate Annual Feast Day Mass

A Solemn High Mass will be celebrated tomorrow morning at 10:30 by The Very Rev. Francis E. Moriarty, S.S.E., President of St. Michael's College, in Austin Hall. Fr. Maloney will be deacon and Fr. Hamel will officiate as subdeacon.

Fr. Moriarty, who recently returned from a tour of the European continent will deliver the sermon. This will be the President's first official greeting of the new school year to the faculty and students of the college.

Saturday, Nov. 16, traditionally a general holiday at St. Michael's, is President's Day and is held on the Feast of St. Edmund in honor of the patron saint of the Society of St. Edmund. In conjunction with this year's feast of, the saintly scholar, the society is also celebrating the twentieth anniversary of the founding of the Edmundite missions in the South.

The arm and hand of the body of St. Edmund, incorrupted to this day, can be seen in the chapel of St. Michael's

College Conducts High School Visitation

Since 1949, St. Michael's College has been conducting a high school visitation program. This program is of the type wherein the College sends representatives to various high schools to meet and speak to the students and guidance personnel. The basic idea is to constantly inform the high school guidance personnel of the ever changing scene here at St. Michael's.

MR. KENNY

At present the program is under the direction of Mr. Kenny, head of the Alumni Of-

(Continued on page 3)

Knights & Knaves To Present "Hasty Heart"

This year's annual Fall production by the Knights and Knaves will be the "Hasty Heart" by John Patrick. The "Hasty Heart" is a three act play which was a hit on Broadway in the 1940's and was later made into a motion picture in Hollywood.

The play will be presented in Austin Hall on the tentative dates of December 4th and 5th. The reason for the uncertainty of the dates is that the flu has cancelled many rehearsals. But now that the cast has recovered, the rehearsal schedule has been stepped up. There are nine members of the cast.

(Continued on page 3)

Question: *What do you consider a well dressed student? Why?*

Faculty View

Recognizing that your proposition is a definitely leading question (one of the so-called pet "gripes" of the students) let me begin by saying that perhaps any answer upholding the requirement for student-dress will no doubt be frowned upon. It will uphold it because I would be of this opinion regardless of student policy.

All college students because they are in college demand to be known henceforth as "men". If this be true, let them assume the responsibility, or burden, to act, talk, and dress like men. No student on this campus can tell me he doesn't recognize the responsibility of the college to educate him to the best of its ability, but certainly he would also recognize that shaping a man's manners as well as his mind presupposes mutual responsibility.

If the students who object to regulations would without pre-conceived prejudices view the school's regulations as designed primarily to benefit them, it would perhaps be easier to agree with their demand to be known as, and called, "men". *F. John Stewart, M.A.*

1957"Shield"

We were very favorably impressed by the 1957 "Shield." Editor Ray Jacques and staff are to be congratulated for producing a truly fine yearbook.

The true task of the annual, that of complete coverage of a year at St. Michael's, was excellently fulfilled. The tradition-breaking new size was a big step to take, but we feel a definite change for the better.

Yet for what impressed us most one had only to open the attractive front cover. There in one impressive setting was not just a year but the whole program, purpose and meaning of St. Michael's College. Beautifully simple, the cut-away shot consists of the books of the integrated Humanities program set within an abysmal background, with the glowing inscription, "and you shall know the truth . . ."

Here is St. Michael's!

Matter Of Honor

To all Michaelmen:

This is to inform all students on campus of a joint policy agreed upon by the Student Council of Saint Michael's and the Interfraternity Council of the University of Vermont.

This policy states that no University of Vermont student will attend a Saint Michael's social function and in turn, no Michaelman will attend a University of Vermont function unless they have a proper invitation. On our part this demands that we refrain from attending any function within the University including fraternity parties.

Since we have entered upon this agreement, our honor as Michaelmen is involved. I would sincerely appreciate the cooperation of every Saint Michael's Student in following the above policy.

Joseph R. Lee
President, Student Council

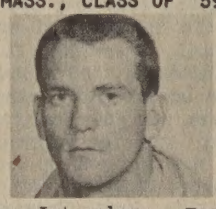
by Lawrence X. Clifford

Question For The Week: What do you as a player in the interclass football league, think of interclass football here at St. Michael's?

BILL GORMAN, BARRE, MASS. CLASS OF '58

Seeing that football is the first event in which the four classes participate in competition for the Victorious Knight Trophy, it should naturally be high spirited, as I believe it is. However I do feel that the schedule should be drawn up prior to Freshman Week so that the football program may get underway approximately one week after registration.

DON LAMOUREUX, WORCESTER MASS., CLASS OF '59



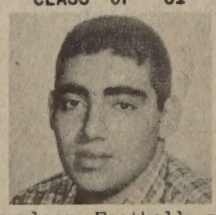
Our Interclass Football program is definitely not up to what it should be. The administration should never have given up tackle for our present touch football league. They did that, I believe, to prevent injuries, but what happens? Guys have gotten broken noses (right Ray?), twisted ankles, black eyes etc....Also, not as many students are participating in the touch league as I think would in a tackle league.

PATSY DeANGELIS, SPRINGFIELD, MASS., CLASS OF '60

Interclass football creates a wonderful opportunity for a college man to continue to display his talent and to encourage school spirit where varsity football is virtually an impossibility. It draws the class closer together and helps to form a strong bond which is sorely absent from St. Mike's.

I enjoyed the experience and had a good time. Wait 'till next year!

RON STOLFI, WATERBURY, CONN. CLASS OF '61



Interclass Football seemed to me to be very good this year. I believe the caliber of play, stimulated by the fact that the seniors did not have complete control of the league, was excellent. However there is room for improvement in the rules of the game. There were many decisions out on the field which if written down or explained adequately beforehand would have caused less hard feelings. Expediency in the league could have definitely been improved if a rule book was published before the start of the season.

What Is NFCCS

This is the first in a series of articles written by P. Terrence O'Grady, Regional President of the National Federation of Catholic College Students. Its purpose will be to explain, what this organization is, what it does, and how it does it.

The National Federation of Catholic College Students is essentially exactly what its name states. Students of Catholic colleges all over the nation have federated. The Federation is the only united voice of Catholic college students in the country. It acts as the unifying bond between you and your society. It works yearly to strengthen this bond of unity.

But, it is more than just this--it is an organization devoted to promoting and coordinating common projects and activities between the member colleges. These workshops and seminars and other types of activity are designed to foster the intellectual, spiritual, and social formation and development of the student.

NATIONAL AFFAIRS COMMITTEE

The Federation acts as a representative agency through which Catholic college students may make statements upon contemporary issues. Developing this function further, the 13th National Congress passed a motion creating a "New Vision" in N.F. That is, it instituted a National Affairs Committee whose dutyit is to collect and disseminate information stimulating campuses in regard to current national studential issues which command an expressed viewpoint from American Catholic college students. It went on to mandate that such viewpoints be voiced through definite and emphatic Congress Policy Resolutions.

But, perhaps, most important, N.F. prepares those intellectually and emotionally involved in it for the task of lay leadership. It stimulates the members of the laity in its society to accept their responsibility to participate in the work of the hierarchy i.e. Catholic Action.

STUDENT DISCUSSIONS

The N.F.C.C.S. provides, then, a forum, a dialogue, and a stimulus. It provides a forum as it brings together Catholic college students throughout the country, to its workshops, councils, and congresses. It provides a diologue, for once together, the students may discuss and exchange their views on issues not only of current interest but issues of age-old importance. It provides a stimulus by emphasizing the Catholic's responsibility to formulate and express his opinions founded on the Church's teaching and in that, the Federation is the student's only united voice for this purpose.

In terms of a definition, then, N.F.C.C.S. is an organization dedicated to fostering the spiritual, intellectual, and social development of the Catholic college student in a practical way.

Student View

Question: *What do you consider a well dressed student? Why?*

In regard to student dress, I must remember that there are many conflicting aspects on this subject, due to the taste of the individual. The average student on this campus would like to be able to wear a comfortable pair of slacks and comfortable shoes to class. This, for most students would consist of "white bucks", "desert boots" and chinos. In this dress the student looks neat in his personal appearance, not like royalty waiting for the stroke of midnight, but well attired for attendance at class.

Since this attitude is prevalent among the students on campus, why not let the students at a typical American College, dress like typical College students?

STUDENT COUNCIL LECTURE SERIES PRESENTS
Leonard Morrison, State Tax Commissioner
Topic: "Does Vermont Have A Future?"
TUESDAY, NOVEMBER 19
8:00 P.M. Science Hall 107

Shield

(Continued from page 1)

The reason for this is that the *Shield* requested $3700 but was only granted $3000 by the Student Council. However, the size of the pictures will by 2¼ by 3¼, and they will in no way detract from the appearance of the book.

SPECIAL FEATURES

There will be a special section devoted to the Class History which is new this year. Another brand new feature will be a section entitled "Life at St. Michael's". This will every phase of campus life and all activities. Another interesting difference this year will be the absence of the informal shots of the Seniors that appeared in last year's book.

The 1958 *Shield* promises to be one of the bestyearbooks yet and the staff is doing its utmost to insure that the book meets the standards of St. Michael's.

Teachers

(Continued from page 1)

is allowed time enough to become acquainted with the teaching-learning environment in which he will work. -- The 2nd phase is observation. Its objective is to direct the student teachers to observation of general & specific activities in the teaching-learning situation. -- The 3rd phase is participation, by which is meant that the student teacher is permitted to take part in the management and instruction of the class room. -- The 4th phase, teaching, is the last and most important. Here the objective is to provide the student teacher with experience in leading and directing the learning of an entire class of pupils. This whole program must be completed in 3 weeks, which indicates that the student teacher must put in a lot of time in order to meet the requirements of the course.

Play

(Continued from page 1)

THE CAST

Maxine Kaiser will portray Margaret, a nun; Miss Kaiser is a Trinity College graduate and has appeared before with the St. Michael's Dramatics Club. She is best remembered for her role in the Passion Play last year. Other members of the cast are as follows: Joe Merigo, as a Yank, Gerry Curran, as Diggie, Steve Schriever, as Kiwi, Dave Powell who will portray Blossom, Mike Pelham as Lachlen, and James Canavan as The Colonel. There is still one part to be cast. Any candidates who wish to try for the part need only one requirement -- they must be stout.

Technical Director is John Haggerty, president of the Knights and Knaves. He is in charge of the setting and lighting.

PASSION PLAY

The major production of the Knights and Knaves will again be the Passion Play, held on Sunday in Burlington. The play last year was a huge success and the proceeds went to the building of the new high school.

The "Hasty Heart", which is directed by Gerry Caferelli, was rated among the best plays on Broadway and should be well worthwhile seeing.

(Continued from page 1)

Debating

Anselms and Dartmouth in one and one split.

LAMARCHE SATISFIED

Dave LaMarche was outspoken in his satisfaction with the club. The president said, "We have taken on the best competition New England has to offer, and we are batting 500. With only four men on the squad who have any intercollegiate experience at all, I call the record very impressive!"

LaMarche attributed the success of the young squad to its size and work. The 20 man club meets for two hours every week for club business and practice debates. As many as four debates can be run during the Thursday sessions, thereby affording every member ample opportunity to debate. "The experience is essential", said one of the debaters, "if we are to make a decent showing in the tournaments coming up. With that practise and training, we will have one of our best seasons"

Scholarship

(Continued from page 1)

Mr. Garrett, when interviewed, described his own role as primarily one of organization and administration. "The most intensive personal work with the students will be done by the faculty members on the committee" he said. Obtaining scholarships is nothing new for Michaelman, he pointed out. One alumnus is presently holding a Guggenheim Fellowship, several have held Fulbrights, and the list of those who have held institutional fellowships and assistantships is long indeed. "But several of us have been deeply concerned that a number of young men obviously in good competitive position for national prestige awards have either never applied, or applied too late. A few others who did apply, destroyed their competitive advantage by poor presentation of post-graduate plans or by making a poor impression during a screening interview. The function of the scholarship committee, therefore will be: 1) to identify from the freshman year on those students who seem to have special qualifications for specific prestige awards, 2) to acquaint these students with the competition requirements for these awards, 3) to guide their thinking in the development and statement of projects which they will submit in the competitions, 4) to train them in the detailed procedures of making application, and, finally, 5) to make them alert to the demands of an interview situation".

Details on the personnel of the committee and the awards with which the committee will especially concern itself will be forthcoming later, Mr. Garrett said.

Visitation

(Continued from page 1)

fice. He is assisted by Mr. Howrigan. These men; along with the part time assistance rendered by three vocational directors of the Society of St. Edmund, who visit communities and educational facilities to interest young men in joining the Society; visit over 300 high schools per year. Their travels take them from the Canadian borders of northern New England to Penn. and New Jersey.

The St.Michael's College Varsity Basketball Team For 1958

The Broken Fungo

by Vin Farrell

Well Michaelmen, winter is upon us and as the snow drifts over the tennis courts one thinks of the great events in store for us, the great hockey games, jam-packed Winter Weekend, beautiful snow sculptures. But don't despair gang, there is a rumor that they plan to bring us "Racing under the Stars" this year with the new street lights. Getting back to the more serious side, the OUTING CLUB and the SKIING CLUB seem to be doing their bit to make our winter months a trifle more bearable. After reading last weeks "Man in the Street" but it seems we have quite a few GORDON HATHAWAYS or is it ALFRED E. NEUMANS ("I'd read it if it had the funnies") I was glad somebody liked this column, now I won't feel ashamed taking my 35 grand. To our refugee from the MaClullen Committee with the little black bag ---- From now on foist your wares on Fay and Foucher. You have lost a "steady" customer. Now that our hoopsters have arisen and escaped Merlin's clutches, be sure to see them Friday night . . . . don't know the time yet, but the first guy in the gym takes home as a door-prize Trottier's "Coonskin" job. After reading the galley-proofs of this weeks sport page, Dave MRACEK demanded 500 copies. Don't worry, we sent an ample supply to Trinity. (I know this is probably out of relm, but things are pretty bad when "Hilda Hooper's rating is better than the Chapel's, the exodus at the 11 o'clock made me feel that a few of our boys doub't the Transubstantiation). Another plug (they're all over the place). The Intramural Basketball games are starting, they would have begun sooner but the "refs" were busy, they had to go on Mike Wallace last week. Maybe they're not as colorful as the days when "Dukie" and the mobsters from St. Will's were roaming the courts, but during some games you'd think it was the N.B.A. To those few stalwarts who are holding out for a Sports Column --- Have patience Basketball is near. Oh', by the way I hope the boys from Alumni 3 form a team with Togo Neckless as capt. He can get all his "Wista" gang of "ALL WORLDERS". Watch out Albany!.

Front row, left to right; A. Nicodemo, F. McCaffery, A. Orlando, D. Denmead, W. St. Peter T. Burtis, W. Tessier, T. O'Rourke.
Second row, E. Markey, R. Zeitter, D. Mracek, T. Spychalsky, J. Watson, H. Gretkowski, J. Brown, "Doc" Jacobs.

Introducing The Purple Knights

Hank Gretkowski

Of all the ballplayers at St. Michael's College, Hank needs no introduction or build-up. His records speak for themselves. High scorer with 405 points, high rebounder with 343 State MVP and the Quantico all star team.

Playing forward he was always up in the air for rebounds. Gathering most of his points on lay ups, he also developed quite a jump shot, which can be looked upon as one of the best.

Knight fans will all be watching Hank this year mostly because last year was the first time he played any school ball. At James Ferris High he did not play any ball and his freshman year at St. Mike's, he was inelligible for frosh ball. He did play for the freshman interclass team and proved to be a high scorer and a great rebounder.

Among his other talents, is his glove play around first base on the SMC baseball team.

As the playing season gets under way fans will begin to notice that Hank is not just a three way threat, but a four way threat with his spirit, points, rebounds and great defense making the opposition sh udder when the Purple KNIGHTS come on the floor.

Anthony "Tiger" Nicodemo

Anthony "Tiger" Nicodemo, a Junior, is not new to most basketball fans on the hill-top. Everyone can remember the first game of the season last year when he started in place of Bill Kuchar and came through with 20 points, a great defensive game and led the Knights to an 83-51 win over Norwich. From then on he saw limited action but ended the season with a total of 185 points for an 8.3 average.

His one hand jump and driving lay ups make him a hard man to guard. A guard by trade, he is far from being shy on defense.

As a freshman he led the team in scoring with 283 points, while the team was compiling an exceptional record of 12 wins and 3 losses.

A graduate of James Ferris High School in Jersey City, Tiger was the first player to attain more than 1000 points in Jersey City history. Besides participating in track and running in the Penn. relays, he also played baseball.

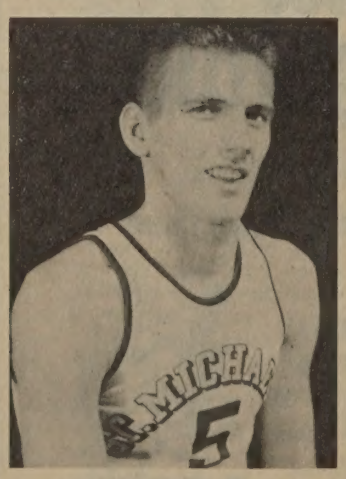
With "TIGERS" speed and hustle, Doc. Jacob's PURPLE KNIGHTS should continue on their winnings ways to another good season.

Dave Mracek

"Big Dave" Mracek can prove an asset to Doc. Jacobs chargers this year. Shooting with either hand, with a very good eye from both corners and the pivot, Dave could very possibly be seen starting at center this season.

Last year as a sophomore he was sparsley used, but as his freshman records show, he averaged 16 points per game and pulled down many a rebound, which could be an indication of what he could do in the future if given a chance in a starting role.

A graduate of St. Marys High School in Elizabeth, N.J., Dave played four years of varsity ball and started in his last two, bringing to St. Marys the state championship four years in a row.



Hank Gretkowski
